2012 Diary of Consumer Payment Choice (online component)

Key to the colors and markings in this document: ***comments to RAND***, New items or text, Things to change or delete

Intro to Diary screen

***RAND: Can we add some text below the “You are selected…” text:
We understand that not everybody makes purchases or has cash activity each day. We are interested in all types of payment behavior, including days with zero payments or cash activity. Please enter your information for today’s diary.

Remember to include each transaction that you make. Only include a transaction once. Do not enter transaction information twice, such as in both purchases and bills.

Do not include transactions made in foreign countries or foreign currencies.

***

***RAND: We like having each day of the diary be a separate “survey”. Please make all the follow up questions that were in “Additional information” just follow automatically and seamlessly after the payments, cash withdrawals, etc from the paper diary.***
***RAND: Can you add a confidentiality statement to this page? Here’s what we have written in the paper diary: Your diary responses will remain anonymous and confidential and will be used for research purposes only. Maybe put it after the “Click here…” text, but above the RAND ALP image.***

***RAND: Can we put a link near the top where the diarist can click to read the diary instructions online? The instructions would basically be the same as the paper diary, but maybe go into more detail. I’ll send you a document with the instructions.

Also, we probably want to put the link to the video instructions where the diarist can easily get to it. (If we are doing an experiment with the diary video, then only show link to those who are supposed to see it.)

***
****Start of Day 1****

***Ask the following question Q1 on Day 1 only***

***Note to RAND – when you send the R a reminder email in the day or two before their diary period begins, can you mention that they are supposed to record the numbers of each bill denomination in their wallet, pocket, purse, etc, preferably either the night before Day 1 or the first thing in the morning of Day 1. Mention to them to read and complete the diary page “Before You Start” on page 2 of the paper diary, which includes the information in Q1. We can also include a link to the instructions online, and the video. In addition, in the same email, remind the diarist to read the introduction on Page 3, the examples on Page 4, and the instructions and definitions starting on Page 12. This is so they can familiarize themselves with the diary and have a better idea of what we’re asking them to do in the diary study. Please read the instructions and look at the paper diary, even if you don’t plan on carrying it.***

Q1. One purpose of this diary is to understand cash activity among U.S. consumers. It is important that we know how much cash you started this diary period with.

Each night we will ask you how much cash you end the day with. But first, we want to know how much cash you started [DISPLAY DIARY DAY 1 HERE, example “Wednesday, October 3”] with.

- Consider cash that is immediately available to you and ready for spending.
- Do not consider cash that is in storage for safe keeping elsewhere, such as your home, car or office.
- Do not count foreign currency.

You don’t have to wake up to count your money. Just record it before you go to bed or first thing in the morning.

At the start of [DISPLAY DIARY DAY 1 HERE, example “Wednesday, October 3”], at 12:01 am, did you have any paper cash in your pocket, wallet or purse?

1. Yes
2. No

If Q1 = NO then:

Q1a. Please tell us why you don’t have any paper cash.

1. I just ran out and I need to get more.
2. I usually do not carry cash.
3. I gave my cash to someone else, such as a family member/friend/housemate.
4. My cash was stolen or lost.
5. Other (specify) ______________

***if Q1 = NO then total cash at start of Day 1 should be set to 0, not missing***

If Q1 = YES then show the following screen:
***(next page)***
**Count your paper cash!**

Please tell us the NUMBER OF BILLS of each denomination in your pocket, wallet, or purse at the start of Day 1.

Your total dollar amount will be automatically calculated.

- Do not consider coins
- Do not include foreign currencies.

****Prepaid card section****

Q102a. Now we’d like to find out about any prepaid cards you might have. These cards are also known as gift cards or stored value cards.

Some of these cards may have a Visa, MasterCard, Discover or American Express logo on them, but they are not a credit or debit card.

In addition, there are government issued prepaid cards such as EBT, Direct Express, SNAP, and TANF.

Most prepaid cards have a dollar value that can be used to make payments, which are deducted from the value stored on the card. Other types of prepaid cards may be valid for use over a specific period of
time, such as a monthly public transit pass, but the value of these cards is not deducted each time the card is used.

Do you have any prepaid cards on [DISPLAY DIARY DATE HERE]?

1. Yes
2. No

If Q102a = YES then:

Q102b. Did you add value to any prepaid cards using any other payment instrument (e.g. cash, debit card, credit card, bank account transfer, direct payment from income) on [DISPLAY DIARY DATE HERE, example “Wednesday, October 3”]?

1. Yes
2. No

If Q102b = Yes then

Q102c. Please list all prepaid card loadings

****Cash identity section****

****RAND – Here we’d like to calculate the cash identity, which involves the following variables:

1. Totcashtrans = Total number of cash transactions on that day (across purchases, bills, cash withdrawals and cash deposits, prepaid card reloadings using cash)
2. Cashstartday1 = Cash at Start of Day 1 (or cashendday(t-1)Cash at End of previous day)
3. Cashendday(t) = Cash at End of current Day
4. Cashspent_payments = dollar amount of all cash purchases
5. Cashspent_bills = dollar amount of all cash bills paid
6. Cashwithdrawals = dollar amount of all cash withdrawals
7. Cashdeposits = dollar amount of all cash deposits
8. svccashreload = dollar amount of all Prepaid card reloadings using cash
9. some smaller variables created earlier:
   a. totcoin2cash
   b. totcash2coin
   c. refundamnt
   d. exchangeamnt

We want to create a variable called “goodcashid” using the conditional logic below.

If
   absolutevalue[(cashstartday1 or cashendday(t-1)) – sum(cashspent_payments, cashspent_bills, cashdeposits, svccashreload, totcash2coin, exchangeamnt, Q120) + sum(cashwithdrawals, totcoin2cash, refundamnt, Q122) – cashendday(t)] <= totcashtrans
THEN goodcashid = 1;

Else if
absolutevalue((cashstartday1 or cashendday(t-1)) – sum(cashspent_payments, cashspent_bills, cashdeposits, svccashreload, totcash2coin, exchangeamnt, Q120) + sum(cashwithdrawals, totcoin2cash, refundamnt, Q122) - cashendday(t)) > totcashtrans
THEN goodcashid = 0;

In addition, we’d like to create a variable called “positivecashid”

If 
(cashstartday1 or cashendday(t-1)) – sum(cashspent_payments, cashspent_bills, cashdeposits, svccashreload, totcash2coin, exchangeamnt, Q120) + sum(cashwithdrawals, totcoin2cash, refundamnt, Q122) - cashendday(t) > 0
THEN positivecashid = 1

Else if 
(cashstartday1 or cashendday(t-1)) – sum(cashspent_payments, cashspent_bills, cashdeposits, svccashreload, totcash2coin, exchangeamnt, Q120) + sum(cashwithdrawals, totcoin2cash, refundamnt, Q122) - cashendday(t) < 0
THEN positivecashid = -1

Else if 
(cashstartday1 or cashendday(t-1)) – sum(cashspent_payments, cashspent_bills, cashdeposits, svccashreload, totcash2coin, exchangeamnt, Q120) + sum(cashwithdrawals, totcoin2cash, refundamnt, Q122) - cashendday(t) = 0
THEN positivecashid = 0

IF goodcashid = 0 then

Q105. Did any of the following things happen to you on [DISPLAY DIARY DATE HERE]? 

- Please check all that apply

| Q105a. I removed some cash from my pocket, wallet or purse and added it to cash stored elsewhere on my property. |
| Q105b. I took cash stored elsewhere on my property and added it to my pocket, wallet or purse. |
| Q105c. I had some cash lost or stolen. |
| Q105d. I found or unexpectedly received some cash. |
| Q105e. None of these things happened. |

totcashtrans
THEN goodcashid2 = 0;

In addition, we’d like to create a variable called “positivecashid2”
If

THEN positivecashid2 = 1
Else if
(cashstartday1 or cashendday(t-1)) – sum(cashspent_payments, cashspent_bills, cashdeposits, svccashreload, totcash2coin, exchangeamnt, Q120) + sum(cashwithdrawals, totcoin2cash, refundamnt, Q122) – cashendday(t) – Q106a + Q105b – Q106c + Q106d < 0
THEN positivecashid2 = -1
Else if
(cashstartday1 or cashendday(t-1)) – sum(cashspent_payments, cashspent_bills, cashdeposits, svccashreload, totcash2coin, exchangeamnt, Q120) + sum(cashwithdrawals, totcoin2cash, refundamnt, Q122) – cashendday(t) – Q106a + Q105b – Q106c + Q106d = 0
THEN positivecashid2 = 0
